

## SQT (Software Quality Testing)

---

To survive in the competitive market and increase the potential to get selected by majority of the branded companies, one has to be aware of all the software and technical developments available in the market. Trainings have to be to the core, fast and simple for one to understand. DP Project Development is specialized in this method. SQT training has become very important as companies require specialists in bulk in this domain. In this IT dominated market SQT is a process which is used to recognize the completeness, correctness, quality of the developed software and its various other requirements. Testing mainly helps in validating the software and verifying its working conditions. SQT training helps one to encode any systematically uncovered errors in a least amount of time and effort. Another benefit of testing is one can understand very easily how a software is working as per its specification and can help in maintaining it also. In this course, DP Project Development focuses in-depth detailed of SQT starting for definition explanation, problem solving, concept clearing, design analysis etc which helps the trainee in clearing the Certification Test. They focus on every miniscule area and clear confusion of their trainees through practical session making them confident and an expert in the domain.

**TRAINING DURATION**      60 Hrs / 1 Months / Customized

**TRAINING CHARGE**      8,000+ Service Tax

### SQT

- A Professional Approach For Manual Testing Tools
- Testing Practice Overview
- Introduction to Software Application Testing
- Models of Software Engineering
- Quality Management System

© DP Project Development Pvt. Ltd.

Address- 572, Sector-4, Vaishali, Ghaziabad, Uttar Pradesh-201010 (INDIA)

Phone:-01204375244, +91-8586890684

- Software Testing Methodology
- Levels of Testing
- Testing Types
- Introduction of Different Estimation Technique and Reporting Templates
- Test Plan, Test Reports
- Agile Methodology
- Practical Implementation of Agile Introduction to Agile Tool
- Software Testing Lifecycle (STLC) Practical Introduction to Project (LabSessions)
- OVERVIEW OF DOMAINS
- Database Testing with SQL for Test Professionals
- Introduction
- Basic Sql
- SQL Functions
- Joining Tables
- Operators : (Data Using Group Function )
- Constraints & View
- AUTOMATED TESTING TOOLS
- QUICK TEST PROFESSIONAL (QTP)
- LOAD RUNNER
- SELENIUM IDE
- QUALITY CENTER (QC)
- USP
- Certification level training of ISTQB

- Detailed Training on each topic-(From basic till advance level).
- Practical Exposure- Enables Professional to work in the Industry immediately after the course
- Chance to work on Live Projects
- Updated and well equipped Lab
- 12 Hours lab facility with lab coordinator
- Training on the latest versions
- 100% Job Assistance

**TRAINING SCHEDULE** - Please contact us for latest training schedule

## **TRAINING MODE**

We give flexible learning options to trainees

- Instructor Lead (REGULAR / ONLINE / WEEK-END / PART-TIME / COMBINED-FLEXIBLE)
- INSTRUCTOR LEAD LIVE ONLINE TRAINING MODE - You can join the training from any part of world
